## Ninja Obstacles

The Global Fitness Phenomenon

# Ninja Obstacles

**Unleash a New Era of Functional Fitness.** Transform your facility into a premier destination that attracts and retains members. Our professional-grade Ninja/OCR rigs are engineered for high-traffic commercial use, offering limitless configurations for group classes, personal training, and competitive events. This isn't just equipment; it's a revenue-driving attraction that fosters community, creates social media buzz, and sets you apart as an industry innovator. From intense functional workouts to thrilling league competitions, build a loyal following and future-proof your business.

**Where Play Builds Foundations for Life.** Elevate your PE curriculum and recess into a dynamic lab for holistic development. Our safe, scalable obstacle systems are designed to nurture fundamental movement skills, resilience, and cooperative play. Children naturally engage in climbing, swinging, and balancing, building critical physical literacy, problem-solving abilities, and self-confidence in a structured yet joyful environment. Ideal for developing gross motor skills, encouraging inclusive participation, and turning playtime into a valuable learning journey that supports both cognitive and physical growth.

**Your Family's Adventure Awaits, Right at Home.** Create the ultimate backyard or playroom hub for connection, activity, and growth. More than a playset, this is a customizable training ground for all ages and abilities. Parents and children can challenge each other, track progress, and share the joy of accomplishment—turning screen time into active, bonding time. Engineered for durability and safety, it encourages year-round physical play, develops coordination and strength, and builds memories that last a lifetime. Invest in health, laughter, and endless family fun.

# Ninja Obstacles

## transform Your Resort into the Adventure Destination Guests Remember.

Our commercial-grade Ninja Warrior Course creates an irresistible, photogenic landmark that sets your property apart. More than just an activity, it's a powerful marketing engine—driving bookings from active families and experience-seekers, while generating authentic social buzz as guests capture and share their achievements. It builds a reputation for fun, engagement, and unforgettable memories.

## Invest in Lasting Returns with Minimal Fuss.

Engineered for high traffic and outdoor durability, this turnkey attraction delivers a strong new revenue stream through day passes and programming, while encouraging longer stays. Designed for safety and built to last, it offers year-round value with little maintenance. Let us help you build a vibrant, profitable hub of activity that keeps guests coming back.

## Professional-Grade Obstacles for the Ultimate Test

Engineered for the precision and demands of Modern Pentathlon competition, our aluminum alloy obstacles are built to the exacting standards of elite international events. The lightweight yet incredibly strong frames ensure consistent performance, athlete safety, and fast event setup or reconfiguration. This is the reliable, professional-grade infrastructure that official competitions trust.

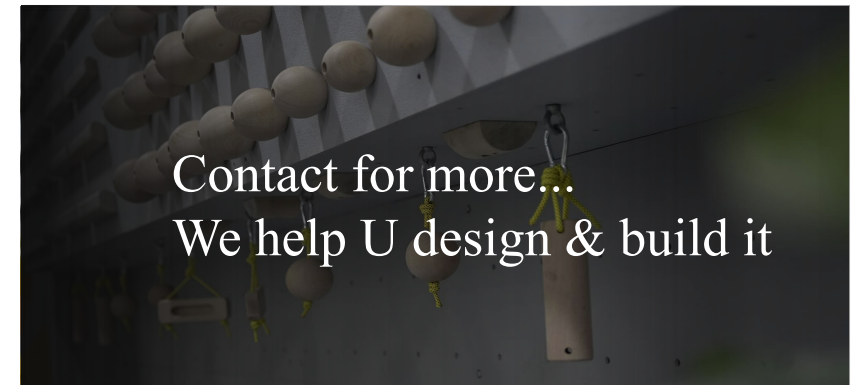

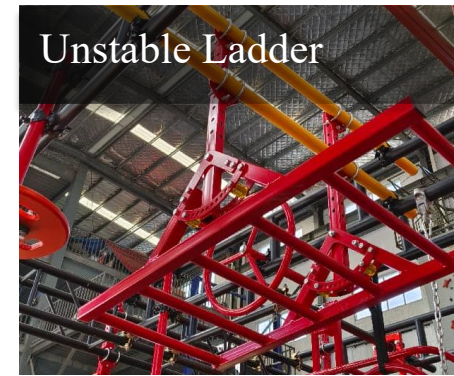

## Configured for Your Event, Ready for Their Moment.

We provide a tailored obstacle solution that integrates seamlessly into your specific pentathlon course layout and challenge profile. From foundation to final finish, our focus is on flawless execution, letting you focus on managing a world-class event. Inquire to design the precise challenge your athletes will face.

# 01 Ninja Obstacles

The Global Fitness Phenomenon

# ABOUT US

Built for Challenge, Engineered for Excellence

Established in 2003, we, Development Group, are a specialist manufacturer of climbing walls and ninja obstacle courses, dedicated to transforming spaces into dynamic arenas of adventure and endurance for home and commerce.

With decades of expertise, we serve clients worldwide—from fitness centers and adventure parks to schools and competitive venues—delivering structures that inspire movement, build strength, and ignite the spirit of competition.

Our commitment to quality is reflected in every aspect: raw materials that meet ASTM standards, climbing panels and holds certified by CE, and state-of-the-art manufacturing equipment. With successful installations in over 30 countries worldwide, we bring global insight and local precision to each project, ensuring safety, durability, and outstanding user experience.

## ■ Expertise Since 2003

two decades of vertical focus, comprehensive technical database from structural design to force analysis.

## ■ Global Standards Compliance

From raw materials to finished products, all work in line with ASTM, CE standards. Safety is not a feature, but the default setting of our products..

## ■ High-Tech Manufacturing

In workshops powered by high-end CNC equipment, precision is measured in millimeters, and consistency is the standard process.

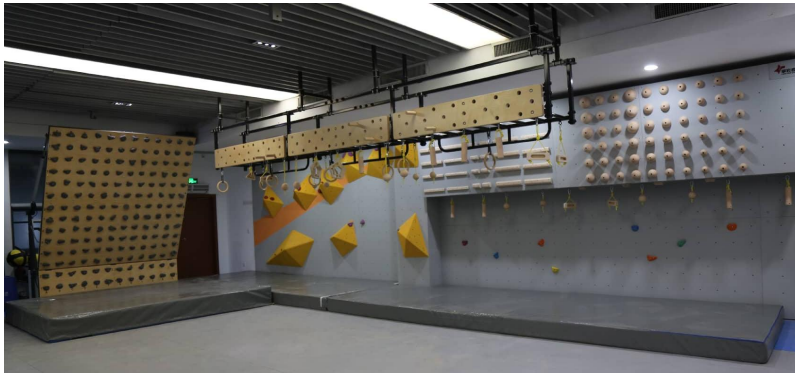

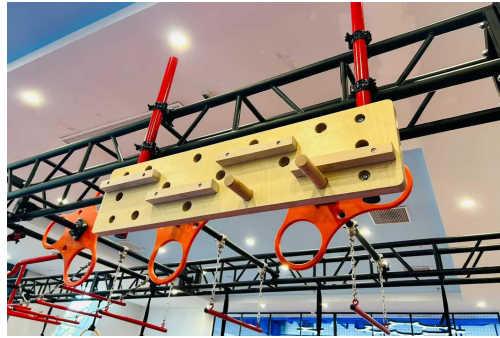

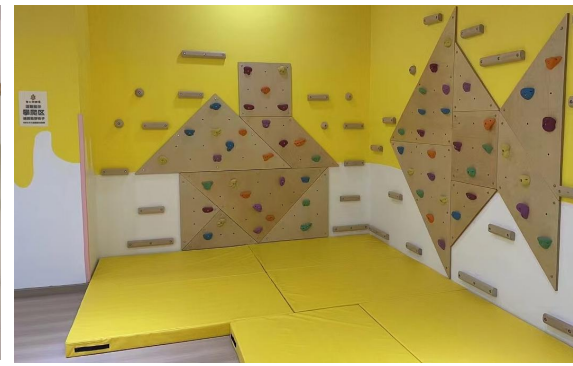

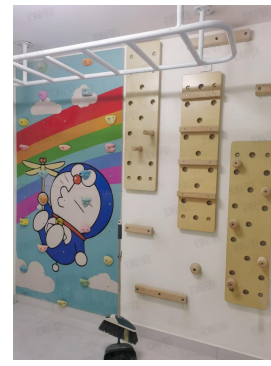

## ■ Tailored & Turnkey Solutions

From concept drawings to on-site installation, we provide a full-chain delivery based on engineering logic, ensuring zero error between conception and execution.

**For  
Everyone  
Everywhere**

*Successful cases in over 30 countries, are not just footprints, but energy and fun we spread all over the world, that's the driving force that propels us forward.*
